WE'RE BRINGING MORE TO MILWAUKEE

Join Us!

There is no overall health without dental health.

Without access to care, dental disease can quickly spiral out of control. Untreated, it causes more than cavities and pain; it affects every aspect of a child's health and life.

When kids smile, they do so much more than light up a room. A healthy smile allows kids to express themselves freely, connect with friends and family and get outside and play. They can eat nutritious food and get the right amount of sleep. Kids can focus on learning and raise their hands with confidence. Good dental health allows kids to be kids.

At Community Smiles Dental, we're on a mission, and your support will help thousands of underserved children in our community.

Join us in bringing more smiles to Milwaukee.

25%

of current CSD patients live in MKE county and have to travel to get care. Because of the waiting list at our current locations, these patients often have to wait longer than they should for care.

84,000

kids in the greater Milwaukee area have difficulty accessing a dental home because so few clinics accept medicaid

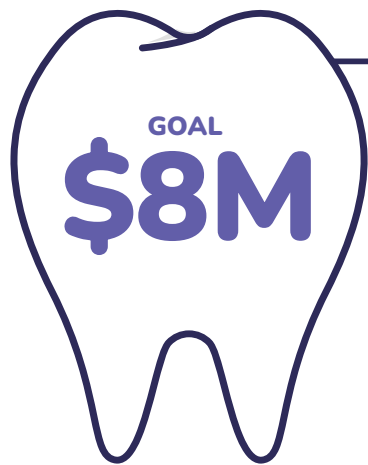

50%

of kids have dental disease by age 9

Overall fundraising goal: \$8 million

With donations from key donors we are on our way.
We need your support to bring CSD to Milwaukee.

With your help we will ...

- Build 12 dental treatment rooms with state-of-the-art equipment
- Reduce the number of children who suffer from Wisconsin's most chronic disease
- Cut the occurrence of new cavities in nearly 2500 new patients
- Provide the long-term stability and sustainability needed to support Milwaukee children

We are building a new Milwaukee clinic location for Community Smiles Dental that ...

Delivers

preventative, routine care to underserved children, including exams, cleanings and fillings

Provides

5000 kids and families in the greater Milwaukee area with easier access to dental healthcare

Educates

tomorrow's dental professionals by providing training opportunities in partnership with Marquette University School of Dentistry

A Milwaukee Clinic

Our Milwaukee clinic will be part of The Beacon, a Milwaukee care and wellness hub.

The Beacon's champions include Advocate Aurora, the YMCA and Community Smiles Dental. We still need your support to help bring more smiles to Milwaukee.

OUR FUTURE, STATE OF THE ART DENTAL CLINIC

in the heart of Milwaukee means thousands of kids
will get the routine dental healthcare they deserve.

So many kids in the greater Milwaukee area do not have a dental home because so few dental offices accept Medicaid and uninsured patients. Kids with special and complex healthcare needs struggle even more to find a dental home.

Tens of thousands of children here do not receive preventative, routine dental care. And this is a serious health problem.

A healthy smile positively impacts a child's physical, social and mental well-being. Kids need preventative, routine dental healthcare to shine in every aspect of their lives. **At Community Smiles Dental, we believe every child deserves a healthy smile.**

**We've
done it
before.**

We have created a model of community care that rivals the best private practices, and for nearly 20 years we've served thousands of kids and families at our Waukesha and Menomonee Falls clinics. However, so many of our patients have to travel from Milwaukee, which is why we're so excited to bring Community Smiles Dental so much closer to home.

We're bringing more
smiles to MKE.

Join us!

About Us

Founded in 2007, Community Smiles Dental provides essential dental healthcare through clinics in Waukesha and Menomonee Falls.

Leadership & Advocacy

Our staff are recognized leaders in nonprofit healthcare in Wisconsin, serving on boards and advisory committees as subject matter experts.

Our Impact

We serve as the dental home for over 4,000 children annually, ensuring access to quality dental healthcare.

Recognition & Reputation

We are a four-star charity on Charity Navigator, and our clinics maintain a 4+ star rating on Google reviews.

**Strengthening smiles.
Strengthening community.**
